

CHARRTS No.: SASC-12-102  
Hearing Date: March 27, 2014  
Committee: SASC  
Member: Senator Inhofe  
Witness: ADM Greenert  
Question: #102  
Approved by: RADM Manazir

EA-18G

Question: Admiral Greenert, will you provide the results of this study to the defense committees?

Answer: Recent analysis conducted for the Navy's Air Warfare Division pointed to the need for additional Growlers. My staff can provide those results. The Navy's Assessment Directorate is conducting a study that will identify the required number of EA-18G's per Carrier Air Wing (CVW) based upon the requirements to conduct CVW mission sets and the unique capabilities of the EA-18G during Major Contingency Operations. Results are expected to be available in June, 2014.
